

Miles invites you to the

Milestones of Science

Celebration at the **Carnegie Science Center**

Thursday

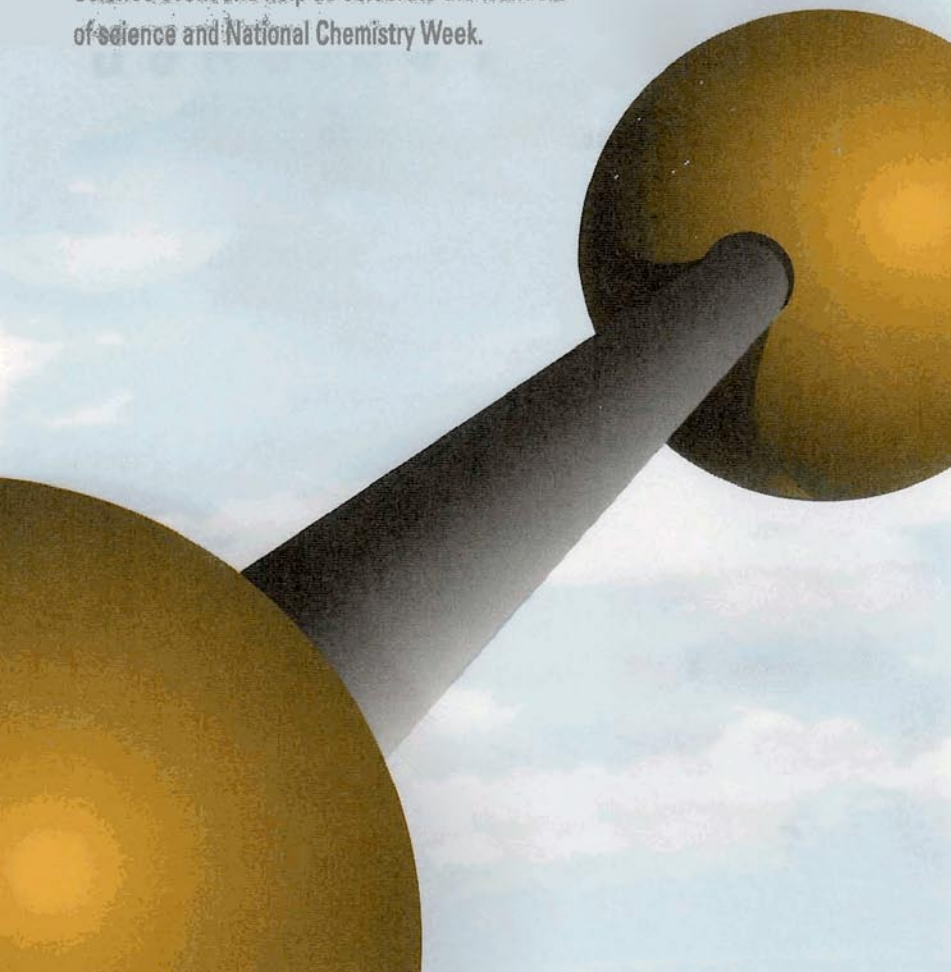

November 5

1992

The Industrial Chemicals Division of Miles Inc.
invites you to an evening that will be interesting,
enlightening and just plain fun!

We hope you and two guests will join us at the
Carnegie Science Center for our *Milestones of
Science* event and help us celebrate the wonders
of science and National Chemistry Week.

The Data

Location

The Carnegie Science Center
(North Side – map enclosed)

Day

Thursday, November 5, 1992

Time

6 to 10 PM

Attending

Miles employees in Pittsburgh
and two guests (children are welcome).

Activities

All of the exhibits at the Science Center
will be open for the evening including:

- *Rangos Omnimax Theater*
- *Henry J. Buhl, Jr. Planetarium*
- *"Science Spectacular" in The Works*
- *Special Chemistry Demonstration in the Blue Cross Health Science Theater*

Omnimax Film

The Dream is Alive

Planetarium

Venus: Earth's Fiery Twin

Provisions

Light supper

Parking

Available in the Carnegie
Science Center parking lot

The Procedure

Return the RSVP card and mark your calendar. When you arrive at the Carnegie Science Center on November 5th, sign up and schedule your activities, and take off on your scientific voyage.

The Result

A wonderful night of fun, food and learning that will help keep science on top of the everyone's agenda.

Milestones of Science

Celebration at the **Carnegie Science Center**

Program of Events

Those of us who work in scientific professions know how important a science education can be. But even those who are not scientists need to be aware of the nature and relevance of science education. It allows all of us to have a better understanding and appreciation of our world.

As a science and research-based company, Miles seeks to lead by example. And in fact, our fellow employees throughout the company are putting their energies and talents to work, initiating and supporting science literacy programs in many of our locations.

To celebrate the wonders of science *and* National Chemistry Week, the Industrial Chemicals Division has sponsored tonight's event. We hope that this evening at the Carnegie Science Center will reacquaint us with the simple pleasure of exploring the 'hows' and 'whys' of the world around us. In so doing, we can muster a deeper commitment to science education – in our own families and in our communities' schools.

Program of Events

by the main entrance to receive your tickets for this evening's events. *Seating for each show is limited. Tickets are available on a first-come, first-served basis.*

Buffet Supper

in the Main Lobby, Second,
Third and Fourth Levels
